3. Once you have your images in order, you are going to use them to create an annotated timeline. Using the page references in the first table, answer the following questions to create a 2-3-sentence summary of each event or period that encapsulates the key details.

What? When? Where? Who? How? Why? (Not necessarily in that order!)

Stick the first photo in your book and put your summary beside it. Continue on in order until you have fifteen images and fifteen summaries in your book.

For example (seeing as you don't have information on this one):

Apollo 11 Moon Landing 1969

On July 20, 1969, astronauts part of the U.S. National Aeronautics and Space Administration (NASA) landed on the moon. Neil Armstrong and Buzz Aldrin descended to the moon surface in the lunar module, *Eagle*, while Michael Collins remained in orbit around the moon in the command module, *Columbia*.

Armstrong, the first human being to place a foot on the surface of the moon, famously said to the global television audience, "That's one small step for a man, one giant leap for mankind."
